

## PHILOSOPHY

Oxford University Press is the world's leading philosophy publisher. We publish outstanding original work across all areas of contemporary philosophy and the history of philosophy. Our list of famous philosophy books stretches back through the twentieth century and beyond.

Our selection for *Oxford Scholarship Online* focuses on the core areas of philosophy. The topics covered are fundamental to the discipline, and thus of interest to anyone doing philosophical work - researchers, lecturers, and students. We have concentrated on recent books - most of them from the last ten years, accompanied by some classics from the 1960s to the 1980s. These books are central to the study of philosophy today and will continue to be so in decades to come. Our authors include leading figures of late twentieth-century philosophy alongside some rising stars of the contemporary scene.
